\*Certain restrictions apply. See back for details.  
 ZEMPLAR is a prescription medication.

**Eligibility Restrictions:**

This downloadable discount is the property of AbbVie Inc. and must be surrendered on demand.

In Massachusetts, co-pay assistance is not available for products with certain generic equivalents (for example, any product with an AB-rated generic equivalent). Available to patients with commercial prescription insurance coverage for ZEMPLAR. The ZEMPLAR co-pay assistance program is not available to patients receiving prescription reimbursement under any federal, state, or government-funded insurance programs (for example, Medicare [including Part D], Medicare Advantage, Medigap, Medicaid, TRICARE, Department of Defense, or Veterans Affairs programs) or where prohibited by law. If at any time a patient begins receiving prescription drug coverage under any such federal, state, or government-funded healthcare program, the patient will no longer be able to use the ZEMPLAR Z5 Plus Card. Patients may not seek reimbursement for value received from the ZEMPLAR Z5 Plus Card from any third-party payers. Offer subject to change or discontinuance without notice. Restrictions, including monthly maximums, may apply. **This is not health insurance.**

**Patient instructions:** Present a printout of the ZEMPLAR Z5 Plus Card along with your insurance card in order to receive discounts when presenting your prescription. You save up to \$70 on qualified prescriptions: the ZEMPLAR Z5 Plus Card covers up to \$70 of your co-pay expenses. This co-pay card also is valid at mail-order pharmacies, yet they may have different requirements. Please contact your mail-order pharmacist for redemption instructions.

**Pharmacist Instructions:** This card must be accompanied by a valid prescription for ZEMPLAR. Please submit the co-pay authorized by the patient's primary insurance as a secondary transaction to OPUS Health. Pharmacists with questions, please call OPUSHealth at 1-800-364-4767.

This card is the property of AbbVie Inc. and OPUSHealth and must be returned upon request. Not valid for patients covered under Medicaid, Medicare, or similar state or federal programs. Not valid in any state where prohibited by law. Card is limited to one per person and is not transferable. **This card is not health insurance.**

Both parties retain the right to rescind, revoke or amend this program without notice.

**Use<sup>1</sup>**

ZEMPLAR® (paricalcitol) Capsules are an active form of vitamin D used to prevent and treat secondary hyperparathyroidism (increased parathyroid hormone levels) in patients with Stage 3 or Stage 4 chronic kidney disease and in Stage 5 patients on dialysis.

- To help lower your chance of getting symptoms of high calcium in your blood, your doctor should make sure the level of calcium in your blood is 9.5 mg/dL or lower before starting you on ZEMPLAR Capsules if you have Stage 5 kidney failure and are on dialysis.

**Safety Considerations<sup>1</sup>**

- ZEMPLAR Capsules should not be given to patients with evidence of hypercalcemia or vitamin D toxicity.
- Excessive administration of vitamin D compounds can cause over suppression of parathyroid hormone (PTH), hypercalcemia, hypercalciuria, hyperphosphatemia, and adynamic bone disease. During ZEMPLAR Capsules therapy, withhold prescription doses of vitamin D and its derivatives.
- Use caution when ZEMPLAR Capsules are prescribed concomitantly with high doses of calcium-containing preparations and thiazide diuretics or digitalis compounds. Digitalis toxicity is potentiated by hypercalcemia of any cause.
- Monitor serum levels of calcium, phosphorus, and PTH during initial dosing or following any adjustment. ZEMPLAR Capsules may increase serum creatinine and therefore decrease the estimated glomerular filtration rate (eGFR).
- To prevent aluminum toxicity, avoid excessive use of aluminum-containing compounds.
- Strong CYP3A inhibitors (e.g., ketoconazole) will increase the exposure of paricalcitol; use with caution.

## Use<sup>1</sup>

ZEMPLAR® (paricalcitol) Capsules are an active form of vitamin D used to prevent and treat secondary hyperparathyroidism (increased parathyroid hormone levels) in patients with Stage 3 or Stage 4 chronic kidney disease and in Stage 5 patients on dialysis.

- To help lower your chance of getting symptoms of high calcium in your blood, your doctor should make sure the level of calcium in your blood is 9.5 mg/dL or lower before starting you on ZEMPLAR Capsules if you have Stage 5 kidney failure and are on dialysis.

## Important Safety Information<sup>1</sup>

You should not start or continue to take ZEMPLAR Capsules if you have symptoms of high calcium or vitamin D. Taking too much vitamin D or taking it for a long time can cause very high calcium or vitamin D levels which may cause serious health problems and the need for emergency medical care. Signs of high calcium include feeling tired, difficulty thinking clearly, loss of appetite, nausea, vomiting, constipation, increased thirst, increased urination, and weight loss. Tell your doctor if you are having any of these signs.

Before and while taking ZEMPLAR Capsules, tell your doctor about all medications that you are taking, including prescription and nonprescription drugs, aluminum-containing compounds, supplements, and herbal preparations, or any change in your medical condition.

Your doctor should measure your blood levels of PTH, calcium, and phosphorus before starting you on and while you are taking ZEMPLAR Capsules. Your doctor may order the tests more often when you begin ZEMPLAR Capsules or if your dose is changed. Your doctor may adjust your dose based on the results of your blood tests.

It is important that you follow your ZEMPLAR medication plan exactly as your doctor has ordered and follow any instructions you were given about your diet and phosphorus restrictions.

The most common side effects with the use of ZEMPLAR Capsules include diarrhea, inflammation of the nose and throat, dizziness, vomiting, high blood pressure, allergic reaction, nausea, and swelling.

**This is the most important information to know about ZEMPLAR Capsules. For more information, talk with your health care provider.**
